

North-South Corridor

Darlington Upgrade Project

Traffic Restrictions

Tuesday 24 October – Monday 30 October 2017

Main South Road, Bedford Park

As part of the Darlington Upgrade Project, major road resurfacing and bridge works will be undertaken on Main South Road between Riverside Drive and Brookside Road at the below times (weather permitting):

Nightworks

- 8pm Tuesday 24 October until 6am Wednesday 25 October
- 8pm Wednesday 25 October 2017 until 6am Thursday 26 October
- 8pm Thursday 26 October until 6am Friday 27 October

Weekend works

- 8pm Friday 27 October until 6am Monday 30 October

The bridge works will be undertaken to strengthen the Sturt River bridge in readiness for the self-propelled modular transporters that will transport the new Main South Road bridge that will be installed over the Southern Expressway, which is scheduled to occur in November 2017.

Excavators, rollers, cranes, trucks, profiler and an asphalt machine will be used to perform these works.

Traffic management

- To safely facilitate the works, one half of Main South Road will be closed at a time, with northbound and southbound traffic redirected around the work zone.
- Riverside Drive will remain open and all turning movements into and out of Main South Road will be maintained.
- Brookside Road will remain open and all turning movements into and out of Main South Road will be maintained outside of peak periods. During the peak period (11am – 2pm) the right turn out of Brookside Road onto Main South Road will not be available. Motorists will be required to turn left onto Main South Road and undertake a U-turn just south of Brookside Road.
- Pedestrian access on Main South Road will be maintained.
- Speed restrictions will apply on Main South Road in the vicinity of the works.
- Signage will alert motorists to the changed traffic conditions.

Every effort will be made to minimise noise and disruption while these works are undertaken and we appreciate your patience and understanding.

Please plan ahead, allow extra travel time, take extra care when workers are on site and observe speed and lane restrictions when travelling through the area.
